A place where students secure data, investigate intrusions, and learn to prosecute cyber crimes from day one.

Georgia Southern University is one of 14 schools in the U.S. to hold these prestigious designations. The Center for Applied Cyber Education (CACE) offers an interdisciplinary approach to cyber education. This innovative center unites Georgia Southern’s state-of-the-art cyber forensics lab capabilities with acclaimed programs including IT cyber security, criminal justice-cyber crime, political science, and law and society.

CACE provides an interdisciplinary applied research experience that gives undergraduate and graduate students the ability to work hands-on in a lab facility fostering a new-age approach to cyber education. The Center has an established a highly competent and real-world-experienced Cyber Operations Analysis Team that when called upon can conduct Blue Team, Red Team, Cyber Risk Management, and Academic Research.
